

NLP Diploma

Brains aren't designed to get results; they go in directions. If you know how the brain works you can set your own directions. If you don't, then someone else will.

What is the NLP Diploma?

The 4-day NLP Diploma gives you a wide-ranging tool-kit of cutting edge NLP techniques to make the changes in your life that you want. It is also certified by the International NLP Trainer's Association (INLPTA), making this a widely-recognised and respected qualification.

What the course covers:

Develop yourself:

- Explore your dreams, and how to make your dreams a reality.
- Gain control over your emotions and reactions so you can choose the state of mind to be in to get the best results.
- Learn to use different styles of communication in pictures, words, logic and feelings.
- Uncover the power of your unconscious mind.
- Find out and overcome your own limiting beliefs and reprogramme yourself to be whoever you want to be.

Build relationships with others:

- Discover the keys to winning instant trust and respect with all kinds of people so that you can develop your personal influence.
- Learn techniques that can help you bring about change in people at work or in your personal life.
- Understand what makes other people tick, and what makes yourself tick, so you can tune in to their drivers to achieve win/win results.
- Read non-verbal communication fluently to understand hidden messages and use that information to tailor your own communication.

How is the training conducted?

Each day is full of activities focused on helping you to develop your own goals by applying NLP in all areas of your life, personal and professional.

By the end of the course you will have skills and tools to make your life goals a reality, as well as the confidence to use these skills built through having applied them to yourself and to others with the personal supervision of the course tutors.
